Models of Success

Dorothy Perrault, '60, was honored on Wednesday, March 24, at the first Models of Success Reception at the Alumni House. Models of Success, a new program designed to recognize Dillard alums for success in their fields and for giving back to the community, will help bridge the gap between current students and alumni, says Adrian Guy, '01, the executive director of Alumni Relations. After graduating from Dillard's Division of Nursing, Perrault became the first registered black nurse at Sara Mayo Hospital in New Orleans. An entrepreneur, she has excelled in fields ranging from business and politics, to child care and catering. At the reception, DU President Marvalene Hughes gave her a proclamation, and New Orleans Mayor Ray Nagin gave her a miniature key to the city.
