

The resiliency, faith and determination displayed by Dillard's students, faculty, administration and staff in the aftermath of Hurricane Katrina have made Dillard University a symbol of hope for the Gentilly community, the city of New Orleans, and the United States.

Moving forward, the same strength of character that helped Dillard survive the storm will help it to reach and be recognized for the excellence that is a hallmark of a Dillard education.

With your help, The Capital Campaign for Dillard University will enable this institution to increase its ranking among the nation's universities, rebuild its beautiful campus, attract top faculty, and recruit the best and the brightest students. Dillard will give its students the quality education they deserve and assure they have state-of-the-art facilities and technology for the 21st century.

Working together, we are laying the foundation for a bright future for Dillard University, for the Gentilly community and the beloved city of New Orleans. Your gift will make that possible.
