Private/Alternative Loans

Private loans (also known as alternative student loans) can help you pay for college when federal assistance is not enough. We encourage all students to first look into federal loan programs. Eligibility for private/alternative loans depends on the student's credit score. These loans are offered by private lenders and the amount you may borrow varies and depends on the lender of your choosing. The Office of Financial Aid & Scholarships will process any private/alternative loan of your choice. Please notify our office if you are applying for a private/alternative loan.
