The date and time of the final examination are determined by the first class meeting day and time of the course for the fall semester.

Final exams are administered according to the exam schedule above.

Students may petition to reschedule exams if the following circumstances occur:

- A student has three or more exams scheduled on the same day.
- A student has two exams scheduled at the same time.
- Students desiring to reschedule final exams due to three or more exams on one day or two exams scheduled at the same time must submit documentation of their schedule and the conflict to the professor(s). Exams for lower-level classes have priority. For example, a 100-level course has higher priority than a 200-level course.
- The student petitions the 200-level course instructor for rescheduling.
- Exams for individual courses have higher priority than departmental exams, regardless of level. The student with a conflict should petition the instructor of the courses with the departmental exam for rescheduling. The exam is normally rescheduled for the time assigned to the individual course in the published examination schedule.
- For all instances not covered by the tiebreakers above, the exam scheduled at the earliest date and time has priority.
